

## The ultimate tech solutions

Ultrizoe Technologies is a software start-up domiciled in Malabe, Sri Lanka with a firm vision to provide excellent service for both its local and international clientele.

## Associate Software Developer

### Qualifications required:

- Knowledge with JavaScript frameworks (React Native / Angular / Node.js)
- Hands on experience with HTML / CSS / Bootstrap
- Problem solving and strong communication skills
- Ability to work within deadlines both individually and as a team
- Willingness to learn new things

Selected candidates will get benefited with competitive remuneration packages, exposure to work with international clients, experience with trending technologies, and convenient working location.

We admire skills and passion rather than paper qualifications.

If you feel you're the right candidate for the above position, send us your CV to
